TWO FATAL FIRES.

Five Persons Killed and Four Others Injured in a Blaze at Mt. Vernon, N. Y.

ONE WOMAN WAS FATALLY BURNED

A Large Buggy Factory at York, Pa., Was Destroyed, With Contents, Entailing a \$200,000 Loss.

The Walls Fell and Firemen Were Crushed, Three Being Killed and Two Severely Injured—Employees Barely Escaped.

Mt. Vernon, N. Y., April 7.—Five people were burned to death and four others burned, one fatally, in a conflagration which destroyed Columbia hall early Wednesday. Nathan Frey, 45, a shoe dealer, his three young children and a maid perished, while Mrs. Frey was fatally burned. Three others sustained painful injuries.

Frey, two children in his arms, and the eldest child and the maid, were burned in the doorway.

The loss is estimated at \$15,000, the tenants losing all their belongings.

York, Pa., April 7.—Fire of unknown origin totally destroyed the large plant of the York Carriage Co., entailing a loss of about \$200,000, partly covered by insurance. Two hundred and sixty men are thrown out of work.

Late Wednesday night it was ascertained that three firemen, Marcellus Strubinger, Horace Strine and Harry Saltzinger were buried beneath falling walls. The bodies of two of them have been removed. A number of other firemen were more or less severely injured.

The entire plant was consumed with its inflammable contents, and much adjoining property was damaged. Shortly before 10 o'clock a wall fell, burying beneath the hot bricks three firemen, Harry Saltzinger, Horace P. Strine and Lewis Strubinger. The bodies were recovered later. Two other firemen were severely injured at the same time.

The 260 employees barely escaped with their lives.

OMNIBUS CLAIMS BILL.

The Measure Was Passed in the House of Representatives.

Washington, April 7.—Senate—After waiting with much patience for many days, Mr. Hepburn Wednesday found opportunity to speak to the senate on the subject of pure food. Technically the speech was in support of a resolution calling on the secretary of agriculture to send to the senate the results of the investigations made by his department into adulterated foods, but in reality it was in support of the pure food bill. Mr. Hepburn contended that a very large proportion of foods, drugs and liquors were adulterated and that many drugs were absolutely poisonous. The greater part of the remainder of the day was devoted to Mr. Quarles' amendment for grading the salaries of rural free delivery carriers. Finally it was declared out of order.

House—In a five hour session, the house passed 17 bills relating to the District of Columbia, including one incorporating the Carnegie Institute. It also passed the Bowman omnibus claims bill, carrying approximately \$228,000 for the payment of small claims, agreed to the conference report on the fortifications bill and instead on its disagreement to an amendment on that bill providing for the purchase of a submarine boat. The Alaska delegate bill was taken up, and Mr. Cushman (Wash.) made a long explanation of the measure, setting out necessities of the territory in the way of representation in congress.

Sponsor For the Cruiser California. Washington, April 7.—Secretary Moody has been advised that Miss Florence Hay Pardee, daughter of the governor of California, has been selected as sponsor for the cruiser California, which is to be launched at San Francisco April 23.

Left For Old Point Comfort.

Washington, April 7.—Postmaster General Payne left here Wednesday night on the Norfolk boat for a period of recuperation at Old Point Comfort, Va. Though considerably better than he had been, he is far from being a well man.

Carter, Ky., April 7.—John Sizemore, farmer, while out with a team fell upon one of the standards of his wagon and was almost disemboweled.

LEROY C. HARDIN.

The Prisoner Was Turned Over to Detective Callahan.

Atlanta, Ga., April 7.—After being driven in a closed carriage from the rear of the United States custom house Wednesday night in company with Detective Callahan, of Cincinnati, and Post Office Inspector Bannerman, of Birmingham, Leroy C. Hardin, the man who charged Detective Callahan with kidnaping him in Florida, was placed in a mail car on the Nashville, Chattanooga & St. Louis railroad, which left for Cincinnati at 8:30 o'clock. Judge Newman, of the federal court, and Judge Calhoun, of the city court, refused to grant a writ of habeas corpus applied for by Hardin and the prisoner was turned over to Detective Callahan.

Immediately following this action of the city court, a warrant for cheating and swindling was served on Hardin and an attempt was made to place him under arrest by deputy sheriffs of this county, but the officer who had him in charge did not surrender the prisoner.

During the commotion caused by his attempt to arrest Hardin, United States Deputy Marshal Rinard appeared on the scene with still another warrant for the arrest of Hardin, which charged him with using the mails for fraudulent purposes. This was not served, as the habeas corpus writ was denied.

It is understood that Justice Armond, in whose court the warrant for Hardin's arrest charging cheating was sworn out, will hold Chief Ball, of the Atlanta police force, in contempt of court for allowing the prisoner to leave the city when a warrant was out for his arrest.

THE JOINT CONFERENCE.

Kentucky Operators and Miners Failed to Reach An Agreement.

Louisville, Ky., April 7.—The conference between the delegates representing the Kentucky coal miners and operators to which President John Mitchell, of the United Mine Workers, was a party, ended Wednesday in a disagreement, and a strike seems inevitable. The delegates were in conference nearly all day, but despite the efforts of President Mitchell to bring together each side held to its original terms, the miners demanding the full Indianapolis scale and the operators demanding an average reduction of 4 1/2 per cent.

President Mitchell could do no more than induce the delegates to hold another conference Thursday and make a final effort to reach an agreement, but before leaving for Indianapolis he admitted that a strike is almost inevitable.

The union miners claim there are 6,000 union miners in Kentucky and of these nearly 5,000 are at work at the present time. It is expected that the men will quit work Thursday night or Friday.

ALBERT E. BELL CAPTURED.

He Is Accused of Many Crimes in Different States.

Tacoma, Wash., April 7.—Albert E. Bell, the alleged mail pouch robber, accused of crimes in many states and who escaped from two United States marshals near Philadelphia last October by jumping from a moving train, was arrested here Wednesday.

He made a daring break for liberty by jumping off a 60 foot embankment, was recaptured and finally landed safely in jail. When searched a number of letters all addressed to Portland, Ore., merchants from points along the Seattle & International railroad in this state and British Columbia, were found in his possession, all containing checks or money orders. When closely questioned Bell said that he and his companion had stolen a mail pouch from a truck in front of the Seattle depot last Sunday morning and had secured \$1,700 in checks and money orders, \$700 of which they had converted into cash.

CARPENTERS STRIKE.

They Want An Increase in Wages of 35 Cents a Day.

Pittsburg, Pa., April 7.—The Beaver County Builders' Exchange league, which was recently organized, commenced its first battle Wednesday with organized labor. All the carpenters made a demand for an increase of 65 cents a day. They were getting \$3. The association considers the demands of the workmen unjust and has decided to fight.

About 500 carpenters are striking, throwing out of employment about 1,000 unskilled workers. Other crafts will be affected and by the end of the week fully 2,000 men will be idle. The strike affects all carpenters in Beaver county.

Seattle, Wash., April 7.—Counterfeit half and quarter dollars are being manufactured in China and shipped through Seattle into the United States.

JAPANESE FLEET.

It is Divided Into Seven Squadrons, Four of Them Watching Port Arthur.

ONE PATROLS THE KOREAN COAST

Two Torpedo Boats Were Damaged in the Engagements, Otherwise the Fleet Was Little Injured.

The Russian Warships Are Patrolling the Gulf of Pe Chi Li—A British Steamer Was Stopped and Searched.

London, April 7.—The Daily Telegraph's Seoul correspondent says he learns from a Japanese sailor who participated in the attacks on Port Arthur that the Japanese fleet is divided into seven squadrons. Four of these are watching Port Arthur, the fifth patrols the Korean coast and the sixth and seventh cruise between Vladivostok and North Japan. Two torpedo boats were much damaged in the engagements, but otherwise the fleet was little injured. The damages to the Japanese cruisers Iwate and Yoshino have been repaired and the vessels have joined the fleet.

The Daily Telegraph's Wei Hai Wei correspondent, cabling under date of April 6, says Russian warships are patrolling the Gulf of Pe Chi Li, and that the London Times steamer was stopped and searched 30 miles outside of Port Arthur Tuesday.

The Standard's Tien-Tsin correspondent says Paul Lessar, Russian minister to China, has protested to the Chinese government against the presence of Japanese instructors with the Chinese army which he regards as a violation of neutrality.

Port Arthur, April 7.—The Russian battleship Peresvet reports that she sighted the enemy Wednesday in Kwan Tung waters. All is quiet here.

London, April 7.—The Times correspondent, who is cruising in the vicinity of Port Arthur, cabling concerning the hold-up of his vessel by a Russian warship, says it was the armored cruiser Bayan flying the flag of Vice Adm. Makaroff, which chased and later searched his steamer. He says the Bayan shows the scars of the damage recently inflicted upon her by the Japanese but that she is a fine ship and well handled.

"In overhauling us," he says, "her officers and crew appeared a little finely drawn, but they nevertheless were of good material."

The correspondent of the Times at Chee Foo, cabling Wednesday, says the Russians captured two Japanese spies at New Chwang Tuesday who were in possession of the plans of the new fortifications.

SWARMS OF LOCUSTS.

The Most Terrible Snow Storm Would Give No Idea of Their Numbers.

Berlin, April 7.—Swarms of locusts have devastated the valleys of Usumbara in German East Africa. They were first noted coming from Wombu February 22. It is semi-officially stated that the most terrible snow storm would not give any idea of the numbers of the locusts. The trees on which they settled have broken down and banana and mulberry trees have been stripped, even the bark of the mulberry trees being eaten. Scarcely a green blade or leaf has been left in the forests or on the farms except in the case of coffee plants which the locusts tried but disliked.

THE TOMPKINS FUNERAL.

The Most Impressive One Ever Held in Owensboro, Ky.

Owensboro, Ky., April 7.—The most impressive funeral ever held in Owensboro was that of Col. Alex C. Tompkins at the Cumberland Presbyterian church Wednesday afternoon. It was conducted by the Knights Templar and Confederate Veterans. Col. Tompkins made two requests before he died. One was that he be buried in a Confederate uniform. The other was that Gen. Bennett H. Young, of Louisville, his commander during the war, deliver the address at the funeral. Both requests were complied with. Rev. Keene Ryan, of Chicago, who was educated for the ministry by the deceased, preached the funeral sermon. He said: "Alex Tompkins was the David Harum of Owensboro." The burial was at Elmwood cemetery.

A BRAVE GIRL'S ACT.

She Saved Her Little Sister From Death in a Creek.

Rockport, Ky., April 7.—While returning to their home from school near Stanley, Stella Milles and her small sister had a remarkable escape. The horse driven by them ran away and they, together with the vehicle, were thrown into the creek. The young child was caught under the vehicle. The older girl was also in great peril. But, thinking only of her sister, who had already lost consciousness, she managed to pull her from beneath the buggy and carried her to a neighbor, where she was revived.

The job printers remain firm in their demands for shorter hours.

Jackson, Ky., April 7.—Bummer Spicer, the alleged assassin of James Johnson, was called before Judge Hargis and his case was continued until Friday. None of the relatives or friends of the decedent was present. It is said that their absence is due to fear of violence.

Abused By White Caps.

Hopkinsville, Ky., April 7.—A band of white cappers visited the home of Wash Childress, colored, at Hubbardsville, near this city, and, accusing him of recent meathouse robberies, "drugged him out of bed, beat him, ducked him in a pond and partly hanged him. He will recover."

PLURAL MARRIAGE UNSANCTIONED

He Declares That No Such Marriages Have Been Solemnized With the Consent of the Church.

If Any Officer or Member Shall Assume to Enter Into Any Such Contract He Will Be Deemed in Transgression.

Salt Lake, Utah, April 7.—A notable feature of the closing session of the 74th annual conference of the Mormon church was the official declaration by President Joseph F. Smith on the subject of polygamy. The statement follows:

"Inasmuch as there are numerous reports in circulation that plural marriages have been entered into contrary to the official declaration of President Woodruff, of September 26, 1890, commonly called the manifesto which was issued by President Woodruff and adopted by the church at its general conference, October 6, 1890, which forbids any marriage violative of the law of the land, I, Joseph F. Smith, president of the Church of Jesus Christ of the Latter Day Saints, hereby affirm and declare that no such marriages have been solemnized with the sanction, consent or knowledge of the Church of Jesus Christ of Latter Day Saints, and I hereby announce that all such marriages are prohibited and if any officer or member of the church shall assume to solemnize or enter into any such marriage he will be deemed in transgression against the church and will be liable to be dealt with according to the rules and regulations thereof and excommunicated therefrom.

"JOSEPH F. SMITH.

"President of the Church of Jesus Christ of Latter Day Saints."

This statement received the full indorsement of church members assembled, who unanimously adopted the following resolution introduced by Apostle Francis M. Lyman:

Resolved, That we the members of the Church of Jesus Christ Latter Day Saints in general conference assembled hereby approve and endorse the statement and declaration of President Joseph F. Smith, just made to this conference concerning plural marriages, and will support the courts of the church in the enforcement thereof.

A committee was authorized to take steps toward the erection of a suitable building as a monument to the memory of the prophet, Joseph Smith. Although Utah abounds with memorials of Brigham Young, there is at present not a single monument or building in honor of the founder of the church.

BY HIS OWN RACE.

Attempt Made to Lynch a Negro at Bristol, Tenn., Failed.

Bristol, Tenn., April 7.—A mob Wednesday tried to get possession of Finley Preston, the Negro who murdered Lillian Shaw, colored, in Johnson county, and who is now in jail at Mountain City. The mob almost had their man in possession when their courage failed them and they scampered away. The lynchers are said to have been Negroes. This is the second attempt to lynch Preston by people of his own race. Preston was recently convicted of murder and sentenced to be hanged but his case was appealed to the supreme court.

Fowler, D.D., of Buffalo, declined to administer the sacrament of the Lord's supper at the opening session of the New Hampshire Methodist Episcopal conference here Wednesday because individual communion cups had been furnished. The New York World figures out, after a canvas of every State and territory in the Union, that if the Democratic national convention were held now Judge Parker of New York would receive the vote of thirty-four States. The drift seems to be strongly in favor of the New Yorker.

The present indications are that Hon. J. N. Kehoe will be honored by his party with a unanimous nomination for reelection to Congress. His splendid public record, his untiring work for his constituents certainly entitle him to such recognition. He is not only the unanimous choice of his party but has won a host of admirers and friends in the opposing ranks who will no doubt vote to send him back to Washington City.

SECRETARY CORTELYOU of the Department of Labor and Statistics has been taking things easy for a year or so, but the Democrats are giving him enough to keep him busy for a while. Representative Gilbert of Kentucky introduced a resolution to direct Mr. Cortelyou to ascertain and report to the House whether there exists a combination in restraint of interstate commerce in the manufacture and sale of reapers, mowers, threshers, plows or other farming implements or machinery. That such a combination exists there is little doubt, and Mr. Cortelyou and other members of the administration are not caring much whether it does or not.

TOBACCO WAREHOUSEMEN.

The Cincinnati and Louisville Breaks Have Been Hit Hard Lately by the Continental Crowd.

The action of the Continental Tobacco Company in buying up all the tobacco in the hands of the country dealers will have an effect on the trade far more reaching than few people realize. The warehouse interests of Cincinnati and Louisville have undoubtedly been dealt a severe blow by the trust in this latest move.

The Continental people have had agents throughout the white burley district buying all they could secure direct from the growers, and in this way the company purchased a big portion of the 1903 crop. The country dealers have also been busy and had bought practically all that was left in the hands of the producer, except a few scattered crops. Not having obtained all they wanted, the Continental crowd sent their agents after the country dealers, and by giving them a nice profit on their purchases, the company has already secured a big portion of these country dealer's holdings, and will like clean up the platter in a short time.

This leaves very little of the 1903 crop of white burley for the Queen City and Louisville breaks, and practically puts them out of business. They have always depended for their stock stock on the country dealers and the few farmers who refused to sell at the barn.

The Courier-Journal Wednesday had an article in which the writer was trying to account for the surprising falling off in receipts on the Queen City and Louisville breaks the first three months of this year. There has been a reduction of 35,091 hogsheads in the receipts at the leading markets already this year, Cincinnati showing a loss of 11,377 and Louisville 4,927 hogsheads. The action of the Continental in buying from the grower explains this, and the new move in getting the country dealers' holdings will practically leave the markets without any receipts at all.

In buying from the country dealers the Continental has probably secured the tobacco at considerably less than it would have cost had the company waited until it was placed on the breaks.

It has been claimed for years that the tobacco trust was working to drive the warehouses out of business, and this new move is looked upon by some as a long step in that direction. This would leave the trust in absolute control, and it remains to be seen how the growers will fare hereafter.

The members of the Park Lake Outing Club anticipate beginning work on their artificial lake to be constructed near Fox Springs this summer. There are a number of gentlemen in Maysville and Cincinnati who want to take stock in the company, but the promoters are anxious if possible to have all the members Fleming people.

J. E. Robertson, guardian of Stella Hamilton, has filed in the County Court a report of said ward's estate. She owns a third interest in a house and lot in Brooksville and 150 acres on the Washington Trace road, the whole worth about \$7,250; also a half interest in 160 acres of land in Macon Co., Ill., the rental value of which is \$4 50 per acre.

Endeavorers will be entertained in the homes of the good people of Glasgow. The program gives promise of a delightful meeting. Railroads throughout the State have granted a rate of one and one-third fare plus 25 cents for the round trip on the certificate plan.

Mrs. Mary Kercheval-Murnan, wife of Dr. John R. Murnan of Covington, died Tuesday evening after a week's illness from peritonitis. She was forty-one years of age and a daughter of the late J. G. Kercheval, a prominent tobacco buyer of Covington. Her husband, mother and one sister survive, and she leaves a large number of relatives in this city and county who were shocked by the news of her death.

Louis Pegge, a son of Mr. John Pegge of Mt. Sterling, tried to commit suicide Monday at the Lexington asylum where he has been under treatment for epilepsy. He made a rope of strips from the sheet of his bed and tried to hang himself by fastening the end of the rope to the transom of the room which he was occupying. He was discovered and will suffer no bad results from the attempt. The unfortunate young man's parents formerly lived on Lawrence Creek, this county.

Taylor at "Ingian" stays away for the same reason that he ran away,—complicity in the assassination of William Goebel. His guilt is as plain as that of Youtsey, Powers or Howard, and there is so apparent that no fair-minded man any longer has any doubt about it. Now Taylor at Washington, while others come and go, is here all the time; although some of the friends (?) whose wish was father to the thought would have it that he was "gone." He sells package coffee at 12½c, coal oil 10c, granulated sugar 5c, "Daisy" molasses 50c and all best calicoes and gingham at 5c.

HOW HYOMEI HELPS THE HEALTH.

Kills the Germs of Grip, Catarrh and Colds. "Costs Nothing If It Fails," Say J. J. Wood & Son.

Now that Hyomei can be obtained in nearly every town and city in the country, it is possible to buy from druggists a health giving climate, to be carried in the purse or pocket. By breathing it a few minutes four times a day you can soon cure grip, coughs, colds and even the worst and most chronic cases of catarrh.

J. J. Wood & Son have seen so many remarkable cures made by the Hyomei treatment, that they sell it with the positive agreement to return the money if it fails to cure.

A complete outfit costs but \$1, and consists of the pocket inhaler, medicine dropper and sufficient Hyomei to last several weeks.

It effects a cure in the worst catarrhal troubles and if breathed at the commencement of a cold or the grip, will check it quickly and prevent sickness. Extra bottles of Hyomei can be obtained for 50c. When breathed through the inhaler, the germ-killing and health-giving Hyomei goes to the most remote cells of the throat and lungs, killing all the catarrhal germs, soothing the irritated mucous membrane and vitalizing the blood with ozone.

At this season of the year every one should have a Hyomei outfit to prevent and cure catarrhal troubles, and ward off attacks of grip, pneumonia and similar germ diseases.

MYSTERY CLEARED.

Remains of House Recently Discovered on Powers Farm Marked Site of an Old Residence.

The BULLETIN recently contained the following item: "Parties ploughing on the John Power farm the past week discovered the remains of a house, including the foundation of two chimneys, also a neatly laid walk of large flat rock with curbing about six inches under ground. No house has stood on the spot within the memory of citizens of fifty years recollection."

Uncle Billy Power of Sullivan, Ind., was reared on the farm adjoining the farm where the discovery was made and through him the mysterious find was cleared, says the Sullivan Union. Uncle Billy states that seventy-five years ago Thomas Reid, a farmer, resided on the spot where these ruins were found. The house was an old one then and the building gradually crumbled away and passed from the recollection of the residents. Mr. Power says he remembers distinctly playing marbles with Reid's grandsons on the pavement that was found in the old ruins. Mr. Power is a relative of the late John W. Power.

We can't hope to repeat the bargain—it's money saved to choose from this lot.

DEERING MACHINERY and TWINE.

Read what a Mason County farmer says of his Deering Binder:

This is to certify that I bought a Deering Tongue Truck 5 ft. Binder in 1902, and wish to say that it is as far ahead of the old 6 and 7 ft. binders as day is brighter than night. In one day I cut 30 acres of heavy wheat, and without tiring my horses any more than cutting 15 acres with the old 6 ft. binder. It is perfectly free from neck weight or side draft and a pleasure to operate, elevating grain that the old small binders would choke on. Too much cannot be said in favor of this matchless labor saver. I can cheerfully recommend it to all my friends as the binder par excellence. Very truly,
CHAS. T. MARSHALL.

This is only a sample of what everybody says who has a Deering Ideal Binder.

VINOL

—AND—

VINLAX

As a tonic re-builder of wasting diseases Cod Liver Oil has been recognized as the best and safest—but to take Cod Liver Oil in its crude state is the worst punishment inflicted upon a person. To get rid of the oil or grease has been a problem, but modern science combined with the skill and labor of a few men has enabled us to put on the market a preparation of such a pleasant taste that one would think there was no Cod Liver Oil in its composition, but it actually contains every one of fifty or more curative properties taken from genuine fresh cod livers, without one drop of oil or grease. This preparation is known as VINOL, the greatest tonic and tissue builder known to the medical profession.

When taking a tonic people often do not derive the benefit they should; nine cases out of ten this is due to constipation. Do not purge yourself by taking strong medicines, but take a mild, purely vegetable laxative in the form of VINOL, which acts as a tonic to the bowels.
